The Hammock Source

The Real Deal Brazil recycled-tarp hat is handcrafted in Brazil using reclaimed canvas tarps from cross-country South American cargo trucks. Its brim is formed by heavy wire from used truck tires. This one-of-a-kind garden hat is as rugged as they come.

PRODUCT PROFILES

Radius Garden LLC
The Radius Ground Hog Rake is great for wet leaves and small spaces, and even flips over for use as a pitch fork. The curved head makes twice as fast with half the effort. It features a durable fiberglass shaft and soft grip.

Rivard Companies
Central Wood Products' EcoBales are convenient compressed mini bales available in a variety of premium, natural and colored mulches. EcoBales' environmentally friendly packaging method promotes advantages in handling and storage. Its unique drying method and high compression lets them ship large volumes cost-effectively.

Reader Service Number 139

Skagit Gardens Inc.
The arching form of Carex Ralochu Sunrise gives it a sweeping look that trails over rocks, walls or from containers. This clumping evergreen grass boasts wide green leaves with a striking gold-banded variegation. Perennial in mild climates.

Reader Service Number 140

Summit Chemical Company
The Floating Barky Straw Planter helps remove odors and cleans murky water in ornamental ponds and water features, and serves as an ingenious floating planter. The hidden foam core keeps the planter floating, and the barley straw naturally cleans and purifies the water.
